ENGINEERING DIVISION**

CONDITIONS FOR CONSTRUCTION CERTIFICATE / BEACH ACCESS PERMIT

Prior to assigning field crews or calling for bids on this project, please visit the site to review for the following conditions:

1. Construction on private property may require easements. Retaining walls may require building permits.
2. No trip hazards in the public right-of-way. No vaults or valves in sidewalks unless prior approval by the City Engineer. Easements may be required.
3. When construction occurs in concrete streets, decorative concrete, landscaped areas or sidewalks, special replacement conditions will be required on a case by case basis. Please arrange a site meeting with an Engineering Division Inspector prior to construction planning (760-435-5081).

All work performed in the public right-of-way, alleys and easements will require the following:

1. A completed Right-of-Way/Beach Access Permit signed by the City Engineer or representative.
2. Prior to commencing any construction please call the inspection recorder line (760-435-5081) to arrange a pre-construction meeting. Minimum of two (2) working days notice is required for any meeting request. The Right-of-Way/Beach Access Permit will be issued at this meeting.
3. Traffic control plan is approved and issued by the Engineering Division, Transportation Section (760-435-3538).
4. All trenches to be closed daily. Permission to use trench plates will be granted on a case by case basis. When used, all trench plates will be anchored to prevent movement and Cold Mix Asphalt transition maintained at the edges.
5. Call Underground Service Alert to mark existing utilities prior to any digging, public or private (800-422-4133).
6. Construction on holidays and Saturdays requires filing for an overtime permit at the Engineering Division counter by 2:30 p.m. two (2) working days in advance.
7. All construction of public improvements shall be completed in accordance with the City Grading Ordinance 81-20, Amended Grading Ordinance 92-15, Standard Specification for Public Works Construction, San Diego Area Regional Standard Drawings and City of Oceanside Engineers Manual.
8. All replacement of concrete/asphalt streets, sidewalks, driveways, aprons, curbs and gutters will be from joint to joint. Tunneling not permitted.
9. Telecommunications devices are subject to separate removal agreement through the Property Division. Contact Rosa Jones at (760) 435-5176.
