INDEX

The following is an index of the various topics that are addressed in the General Plan elements and their supporting appendices. The index provides the location of the various topic headings as they appear in the General Plan. The reference numbering uses the initials of the specific General Plan element followed by the page number of that element (example, RT-1 refers to page 1 of the Recreational Trails Element). For topics addressed in an element appendix, the reference number begins with the element initials, followed by the element appendix initial, and page number (example, H-A-4 refers to page 4 of the Housing Element Appendix A). Reference numbers in italics refer to figures. The General Plan Appendices, Redevelopment Plan, Local Coastal Program, and Glossary were not included in this index.
