RESOURCE DRAWDOWN

The following tables represent the number of occurrences throughout the month where multiple Engine Companies (includes engines and trucks) and Ambulances are assigned to a call at the same time. For example, there were 595 individual instances in May where 2 Engine Companies were both assigned to a call at the same time at any given point during the month.

2 Engines	595
3 Engines	255
4 Engines	110
5 Engines	33
6 Engines	13
7 Engines	5
8 Engines	1

2 Ambulances	551
3 Ambulances	246
4 Ambulances	64

INJURIES AND FATALITIES	
FIREFIGHTER	0 Injuries, 0 Fatalities
CIVILIAN	1 Injuries, 0 Fatalities

TRAINING & PUBLIC EVENTS

Pub-Ed, Station Visits, School Visit, Ride-alongs: The OFD participated in 14 outreach programs in May. Station visits, school site visits and other public education programs are a key element to our fire prevention program.

Lifeguards and OFD Medics Save Life of Surfer in Junior Seau Paddle Out: OFD Lifeguards and OFD Paramedics saved the life of a surfer who collapsed during the Junior Seau Paddle Out. The patient returned to thank all personnel who participated in her rescue a few weeks later. Great save by the OFD.

Annual Off-road Driver Training: The OFD had mandatory off-road driving training in the El Corazon area.

Tiller Truck Put in Service: The OFD put the new tiller truck into service in May. All personnel have been trained on the driving and operating of the apparatus.

Sources: FireRMS/NCJPA Visinet/Firestats

Wellness Committee: The newly formed Wellness Committee has started to roll out its plans for a wellness program for all fire department employees. The Wellness Committee brought in a guest speaker to discuss the benefits of health and wellness for the department.

Promotions: Congratulations to newly promoted Captain Scott Stein and Engineer Eric Nicol. We look forward to a few more promotions in the near future to fill in the spots created by recent retirements.

Palomar Academy: OFD personnel participated in the regional fire academy at Palomar College.

Confined Space Training: Personnel have started to recertify in confined space rescue operations.

Apparatus Operator Training: Many of the personnel who recently got off probation have begun training in apparatus operator skills. These are required elements of the job and are necessary for future promotions.

CPR/AED Training: OFD Personnel put on a public CPR/AED training session.

Engine Pump Testing: Annual pump testing continued on all Oceanside Fire Department Engines and Trucks to comply with state and federal regulations.

OFD Open House: OFD in conjunction with the Oceanside Firefighters Association hosted an Open House Demo Day down at the Fire Training Center. Hundreds of families attended and were able to see auto extrication drills, car fires, ladder rescues and even a CPR rescue demonstration. It was a great day for all who attended.

Command Training Center: The OFD Command Training Center is nearly complete. Home Depot put on a huge work day and nearly finished the renovations and construction of the CTC. We are slated to open the CTC in June for OFD training as well as for regional training opportunities to other agencies.
