For Immediate Release

WATERFRONT BEACH RESTROOM IMPROVEMENTS WORKSHOP

The City is conducting the first public workshop on the proposed rebuilding and remodeling of five beach area restrooms. The City of Oceanside is developing a plan to replace three existing beach restrooms at Breakwater Way, Sportfisher, and Tyson and to renovate two restrooms at Wisconsin Street and the restrooms located on the pier. City staff and RRM will be conducting the workshop to discuss the need for new and renovated restrooms and to get community input. The workshop will also discuss limitations on size and explore various architectural styles. The workshop will be held on October 28, 2010, in the City Council Chambers located at 300 North Coast Highway at 6:00 p.m.
