Community Outreach

Fire Station Tours

Tours of 20 or less are available at our Fire Stations most days of the week. Tour date availability is always subject to scheduled training, so please be patient and flexible. Select a time and a date for your tour at least three weeks in advance. Just to be on the safe side, select an alternative date or two also.

Apparatus Visits to Schools and Community Functions

A visit by a safety specialist and/or a vehicle to your location can be arranged as well. The scheduling is the same as for the station tours.

PLEASE KEEP IN MIND THAT ALL PERSONNEL AND APPARATUS ARE IN SERVICE AND ON DUTY DURING TOURS AND VISITS.

Whenever possible, a safety specialist is assigned to the visit/event to ensure continuity in the presentation in case of an emergency where the crew needs to respond.

Call Fire Prevention at 760 435 4101 or complete the form below and email to firestaff@ci.oceanside.ca.us

Community Outreach/Public Education Request Form

The City of Oceanside Fire Department Urban Services and Fire Prevention Services welcomes the opportunity to share our resources in our community whenever possible. Please remember when planning a visit to a fire station that all our stations are on duty 24/7 and we are not able to take units out of service for public outreach/education. We will do our best to have a Fire Prevention Specialist assigned to the event to assist with the presentation.
