NEWS

As we begin 2012, the Economic Development Department would like to thank all the brokers, developers and builders who have been tenacious doing the deals in 2011 and kept the City moving forward. Buildings were built, tenants moved in, and business has kept going. Our staff and the City look forward to helping you in 2012 and wish you a Prosperous Happy New Year!

The plans to reconfigure Mission Avenue in Downtown Oceanside were approved by City Council. The proposal is to take Mission Avenue from four lanes down to two lanes one-way westbound from Clementine St. down to Cleveland with a loop back up Seagaze one way east bound and back to Mission Avenue. Reducing the number of lanes on Mission Avenue will allow for numerous improvements, such as wider sidewalks to accommodate canopy trees, street furnishings, art elements, new street lights and bulb outs at the intersections to allow for safer pedestrian crossing opportunities. In addition, these improvements will make this portion of Mission Avenue more inviting for people to walk and shop the streets. These improvements will greatly enhance to entrance into the downtown and will simulate private investment in properties east of Coast Highway.

Mission Avenue Improvements

BEFORE

AFTER

2020 Oceanside Blvd.
