

CITY OF OCEANSIDE

TREASURER'S REPORT

***For Month, Quarter and Year Ended
June 30, 2011***

CITY OF OCEANSIDE

OFFICE OF THE CITY TREASURER

TO: CITY COUNCIL
CITY MANAGER

DATE: JULY 28, 2011

SUBJECT: INVESTMENT REPORT FOR THE MONTH, QUARTER AND YEAR ENDED JUNE 30, 2011

Following is summary information for the City of Oceanside Investment Portfolio for the month, quarter and year ended June 30, 2011.

Market/Portfolio Commentary

Amid much volatility during the fiscal year, interest rates ended with a mixed bag of rate changes when comparing to the prior year's end. The short end of the curve (3-month to 3-year) posted an overall decrease in rates (15 – 20 basis points), while the long end of the curve (10-year and 30-years) posted overall increases (20 and 50 basis point increases, respectively). The mid-section of the curve (5-year and 7-year) remained relatively unchanged. An example of the volatility experienced during the year is seen in the movement of the 5-year Treasury note. The 5-year was at 1.80% on July 1, 2010, then posted a low of 1.04% in November, a high of 2.40% in February, and ended the year on June 30, 2011 at 1.76%.

During the first quarter of the fiscal year (July - September), interest rates slowly declined as market investors tried to decipher whether the U.S. economy was entering into a double-dip recession and a deflationary environment, or merely continuing with the sluggish growth and low inflation. The decline in interest rates continued into the second quarter (October - December) until November when interest rates began to climb due to evidence of economic strength and revised forecasts for future economic growth. Rates increased in February as economic indicators supported the evidence for an improved economy. However, unrest in the Middle East and North Africa, combined with higher oil prices and the Japanese earthquake, prompted a rally in March, leading to lower interest rates from the highs posted earlier in the quarter. This led to only a modest increase in rates at the end of the third quarter (January - March). In final quarter of the fiscal year (April – June), interest rates reversed course as weaker than expected economic data was released, especially in the labor and housing markets. This renewed speculation as to whether the country could be entering into another recession. Other factors contributing to the decline in rates included the continued flight to quality from the equity markets (due to the unrest abroad) and resurfaced concerns over the European sovereign debt crisis.

The Federal Open Market Committee (FOMC) continued its accommodative monetary position during the fiscal year, leaving the Fed Funds rate at a range of 0% to 0.25%. The Federal Reserve (Fed) also began a second round of purchasing Treasury securities in the open market, keeping interest rates low in an effort to stimulate the economy. The Fed concluded its purchase program in June and will continue to reinvest principal and interest payments from its securities portfolio. The Fed is not expected to increase the Fed Funds rate any time in the near future.

The par value of the City's investment portfolio increased by \$26.5 million during the fiscal year, however, due to the bond market remaining in a low interest rate environment, the yield to maturity decreased by 45 basis points, or 0.45%. This decline in earnings was expected; as older, higher coupon securities mature or the call option were exercised, reinvestment of these funds consummated at much lower rates. Any new revenues were invested in the lower interest rate environment. Investment strategy during the fiscal year included investment in longer term securities (3 – 5 year maturity range) earning higher yields, utilizing the State's Local Agency Investment Fund (LAIF) as a liquidity tool (since other money market tools are earning significantly less), and limited investment in municipal securities and corporate medium term notes to further diversify the portfolio holdings and enhance the rate of return. Prudent cash management practices by investment staff ensure that liquidity levels are maintained in a manner sufficient to meet the needs of the City.

As of June 30, 2011, the portfolio statistics are as follows:

• Portfolio Par Value	\$191,855,000.00
• Portfolio Book Value	\$191,844,476.00
• Portfolio Market Value	\$192,227,769.37
• Unrealized Gain/Loss	\$383,293.37
• Average Yield-to-Maturity	1.405%
• Liquidity (0 – 6-months)	16.85%
• Average Days to Maturity	959 (2.63 years)
• Fiscal Year-to-Date Earnings	\$2,873,659.14
• Fiscal Year-to-Date Capital Gains/(Losses)	\$116,536.15

In compliance with the California Code Section 53646, I hereby certify that sufficient investment liquidity and anticipated revenues are available to meet the City's budgeted expenditure requirements for the next six months. I also certify that investments in the City's portfolio meet the requirements of the City of Oceanside's adopted investment policy and the California Government Code section 53601. Market Prices are obtained from Bank of New York and the State Treasurer's Office (LAIF).

Respectfully submitted,

Gary M. Ernst
City Treasurer
