

# STAFF REPORT

ITEM NO. **13**  
CITY OF OCEANSIDE

DATE: December 14, 2005  
TO: Honorable Chairman and City Councilmembers  
FROM: Transportation and Development Engineering Department  
SUBJECT: **ADOPTION OF A RESOLUTION ESTABLISHING AN ALL-WAY STOP CONTROL AT AVENIDA SOLEDAD AND VIA FELICITA**

## **SYNOPSIS**

Staff and the Transportation Commission recommend that the City Council adopt a resolution establishing an all-way stop control at the intersection of Avenida Soledad and Via Felicita.

## **BACKGROUND**

Residents living on Sherbourne Drive have requested traffic-calming in their area because of speeding and pedestrian safety. Staff attended two community meetings (August and October 2005) to listen and discuss the residents' issues. A petition with more than 70 percent of the residents' signatures is attached and indicates support of the installation of a stop sign and other traffic-calming devices. The neighborhood is in the Neighborhood Watch program. Children and teens living in the area skateboard and rollerblade on Via Felicita.

Avenida Soledad is a collector street in a residential area. Residents enter the neighborhood from Old Grove Road. It is one of two entrances into the neighborhood. The second entrance is at Magdalena Drive. Magdalena Drive enters from and exits onto Mission Avenue. There are no traffic-calming devices in the neighborhood. The "T" intersections are without control devices such as stop signs. There is a 45-degree curve on Avenida Soledad. The neighbors state that there were accidents at the curve. Drivers, going too fast, lose control of their vehicles as they come around the corner from Old Grove Road.

## **ANALYSIS**

Engineering and field investigations took place from August 2005 to October 2005. The investigation findings were:

- Street Width: 40 feet
- Speed Posted: 25 miles per hour (mph) signs
- Average Daily Traffic volume is as follows:

- o 1,229 vehicles on Avenida Soledad
- o The 85% percentile on Avenida Soledad is between 24 and 26 mph
- o The maximum speed is between 35 and 37 mph

After analyzing the information, Staff is recommending the installation of an all-way stop at the intersection of Avenida Soledad and Via Felicita, and striping, i.e., double yellow centerline, crosswalks, edging and reflectors around the curve on Avenida Soledad and Via Felicita.

A petition is attached. Also attached is a list of names and addresses of those residents who attended the community meetings in August 2005 and October 2005.

Avenida Soledad will be monitored for 6 months.

**FISCAL IMPACT**

Cost of the installation of the proposed all-way stop at Avenida Soledad and Via Felicita is \$750.

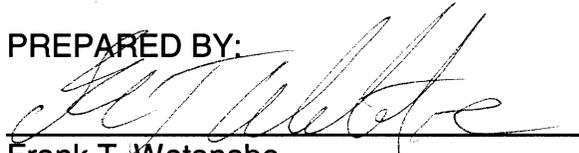

**CITY ATTORNEY'S ANALYSIS**

The referenced documents have been reviewed by the City Attorney and approved as to form.

**RECOMMENDATION**

Staff and the Transportation Commission recommend that the City Council adopt a resolution establishing an all-way stop at the intersection of Avenida Soledad and Via Felicita.

**Subject:** RE: Avenida Soledad Speed bumps

Dear Cindy,

Thank you very much for all the help you are providing us with.

I am sorry I did not get back to you sooner, but I forgot to check my e-mail. My home phone number is (760) 722-4556. The other neighbor that spoke to you in person is Loretta and her number is (760) 722-2784. In addition to this, the gentleman that came to give us the presentation asked for a copy of the phone list of the people that came. The following is a list of most people (some forgot to sign in). Please let me know if there is anything else I can do or get to help out with the process.

Thanks!  
Maria Cordero
