SYNOPSIS

Staff recommends that the City Council accept \$158,025 in grant funds from the San Diego County Office of Emergency Services (OES) awarded to the City of Oceanside for reimbursement of funds expended for equipment and training used to respond to potential terrorist incidents, and approval to appropriate the funds to the Fire Department. These are reimbursable funds to provide training, improve incident management capability and infrastructure protection, and purchase equipment that will enhance the City's ability to respond to a terrorist or hazardous material incident.

BACKGROUND

In March 2001, the City Council approved a request for the application for a series of terrorism response grant funds. The State Homeland Security Grant Program (SHSGP) is facilitated by the San Diego County Office of Emergency Services (OES). For the 2008 award, the OES has approved the City's application for the reimbursement of funds used for planning and to train personnel in preparation of potential terrorist incidents. The funds will also be used to purchase equipment used during daily operations, and is not restricted to terrorist incidents. The equipment purchased will be used to enhance several aspects of the City's response capability as well as provide for increased infrastructure protection.

ANALYSIS

The Fire Department will use the funds to make authorized equipment purchases and provide access to first responder training courses as approved in the grant guidelines. Use of these funds will allow the Fire Department to coordinate purchases and training for all City departments receiving benefit. All purchases and training will enhance the City's emergency response capability.

FISCAL IMPACT

The grant award will reimburse all approved purchases, planning, and training costs, and no matching funds are required from the City. The \$158,025 in SHSGP funds will be deposited into (273.384584.4676) and appropriated to the following accounts in the requested amounts:
