

*STAFF REPORT**CITY OF OCEANSIDE*

---

DATE: May 6, 2009

TO: Honorable Mayor and City Councilmembers

FROM: Development Services Department /Planning Division

SUBJECT: **APPROVAL OF AMENDMENT 2 TO PROFESSIONAL SERVICES AGREEMENT FOR THE OCEANSIDE SUBAREA PLAN SUPPORT AND APPROVAL OF A BUDGET APPROPRIATION FOR THE ADDITIONAL FUNDS**

**SYNOPSIS**

Staff recommends that the City Council approve Amendment 2 in the amount of \$79,036 to the professional services agreement with Foothill Associates of San Diego for additional work to complete the Subarea Plan and present the final to City Council in November 2009, and authorize the City Manager to execute the agreement; and approval of a budget appropriation in the amount of \$40,000 from the Buena Vista Creek Major Water Course District 3 Fund 530 Unallocated Fund Balance to the project account.

**BACKGROUND**

In 1993, the coastal California gnatcatcher was listed as threatened under the Federal Endangered Species Act (ESA). This listing affected a wide range of public and private projects in the City of Oceanside due to the significant amount of gnatcatcher habitat – coastal sage scrub (CSS) – that exists in the City. To proceed, projects in areas with gnatcatchers would have to completely avoid impacts or “take” CSS habitat or seek Federal authorization and permits. Several other species, such as the Least Bell’s Vireo – a small song bird that utilizes wetland habitat – have been listed under the Federal and California ESA since the early 1990s. Currently, approximately 25 plant and animal species that are listed or proposed for listing occur or are associated with habitats in the City.

In 1991, the California Natural Communities Conservation Act (NCCP) was adopted, and the NCCP coastal sage scrub program was initiated in Southern California. In the initial phases of the program, conservation guidelines were developed, and the U.S. Fish and Wildlife Service adopted a special rule regarding the gnatcatcher and CSS pursuant to Section 4(d) of the Federal ESA. Under the Section 4(d) guidelines each jurisdiction in San Diego County participating in the NCCP CSS program were allowed to impact or “take” 5 percent of the existing CSS habitat in the jurisdiction. The City of Oceanside has been a participant in this program since 1993 and was allowed to take

75.4 acres of CSS. Currently, the City has approximately 0.4 acre of CSS take allowance remaining.

To fulfill its commitment to the NCCP program, the City has been a participant in the North County Multiple Habitat Conservation Program (MHCP). The MHCP is a subregional multiple habitat planning effort that encompasses land within the cities of Oceanside, Carlsbad, Encinitas, Escondido, San Marcos, Solana Beach, and Vista. This plan is being developed through a cooperative effort by the seven cities and the San Diego Association of Governments (SANDAG). A similar plan known as the Multiple Species Conservation Program (MSCP) was developed in the central and southern portion of the County. The MHCP Subregional Plan and Final Environmental Impact Statement/Report (EIS/EIR) were adopted and certified by the SANDAG Board of Directors on March 28, 2003. Each of the seven jurisdictions will implement their respective portion of the MHCP via citywide Subarea Plans. The City of Carlsbad adopted their plan in November 2004, and Oceanside is the next in line for adoption.

## **ANALYSIS**

Foothill Associates is the biological consultant that has prepared this contract addendum to address the increase in scope of services necessary to complete the Subarea Plan. The Final Drafts of the Subarea Plan and Open Space Management Plan were forwarded to the U.S. Fish and Wildlife Service and California Department of Fish and Game in December 2005, in anticipation of receiving only minor editorial comments. In November 2007, the City received extensive comments, requiring substantial additional analysis, meetings, document revisions, and mapping revisions. A summary of the proposed scope of services required to complete the Subarea Plan is attached to this report.

The reason for this second amendment is that the City and consulting team are currently meeting 1-2 times a month to revise the document, including updating figures and tables. Wildlife agency staff has asked for detailed information regarding maintenance and monitoring requirements for each open space parcel in the City, which was not part of the first amendment. Staff anticipates having the revised document available for review in summer 2009, at which time a public workshop will be conducted. The Subarea Plan would then be forwarded to Planning Commission and City Council for consideration in September and October 2009.

## **FISCAL IMPACT**

Prior year funding for the Subarea Plan of the Multiple Habitat Conservation Program has been provided in Drainage District 1-A, Fund 511, which has a current unallocated fund balance of \$16,465 which is insufficient for the requested appropriation.

The Multiple Habitat Conservation Program (511.815641) has a current available balance of \$61,522. The \$40,000 will be appropriated from the unallocated fund balance in the Buena Vista Creek Major Water Course District 3 (530.3301), which has

a current balance of \$138,686, and transferred to (511.815641.5241). Any excess funds will be used in the upcoming fiscal year. Therefore, sufficient funding is available for Amendment 2.

**INSURANCE REQUIREMENTS**

The City's standard insurance requirements will be met.

**COMMISSION OR COMMITTEE REPORT**

Does not apply.

**CITY ATTORNEY'S ANALYSIS**

The referenced documents have been reviewed by the City Attorney and approved as to form.

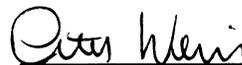

**RECOMMENDATION**

Staff recommends that the City Council approve Amendment 2 in the amount of \$79,036 to the professional services agreement with Foothill Associates of San Diego for additional work to complete the Subarea Plan and present the final to City Council in 2009, and authorize the City Manager to execute the agreement; and approval of a budget appropriation in the amount of \$40,000 from the Buena Vista Creek Major Water Course District 3 Fund 530 Unallocated Fund Balance to the project account.

**SCOPE OF WORK - Not To Exceed****FEBRUARY 23, 2009**

<b>CLIENT:</b> Jerry Hittleman	<b>WITH:</b> City of Oceanside- Planning
<b>FROM: Dick Rol</b>	<b>PROJECT: Oceanside Subarea Plan Support (Addendum 2)</b>

Foothill Associates has prepared this contract addendum request to address the increase in the scope of services necessary to complete the City of Oceanside's Subarea Plan. Several out of scope items have been addressed since the most recent contract addendum, signed by the City in Spring 2008. Furthermore, substantial continuing work is anticipated to finish coordination with the Wildlife Agencies (WLA) and bring the Plan to completion. A summary of the out of scope work already completed and work remaining to be completed is provided below.

A detailed breakdown of the current contract budget status and proposed costs is provided in the attached budget spreadsheet. Please note that where previously-approved budget on individual subtasks remains and is no longer needed, the remaining total has been used to reduce this request for additional funding.

<b>TASK</b>	<b>DESCRIPTION</b>	<b>COST</b>
<b>One:</b>	<p><b>Subarea Plan Analyses to Respond to Agency Comments</b></p> <p>Foothill Associates and its subconsultants (Dudek and Onaka Planning &amp; Economics) have conducted most of the necessary quantitative analyses and evaluations to address assigned portions of the agency comments on the Subarea Plan. The team has coordinated with the City and WLA on required analyses and revisions. The consultant team has completed analysis on consultant-assigned portions of sections 1-4 and most of section 5 of the document. A breakdown of the major categories of work reflected in this task follows:</p> <ul style="list-style-type: none"> <li>• Previously completed out of scope work (\$14,770): The changes requested by the wildlife agencies since the previous draft document (which was also extensively commented) have resulted in more extensive changes to the proposed conservation program and the underlying database than anticipated. OP/E conducted analyses on planned conservation, projected impact, and associated mitigation throughout the plan area. Furthermore, the effort required to address those changes has substantially increased the timeframe for preparing the revised draft.</li> <li>• Work remaining to be completed (\$14,160): Includes analysis supporting revisions to sections 6 and 7 of the document, as well as continuing management of the extensive project GIS database. Additional follow-up work on portions of sections 1-5 is also anticipated in this total, including minor revisions to the covered species analysis, fire buffers analysis, and funding analysis.</li> </ul>	<b>\$27,250</b>

	<ul style="list-style-type: none"> <li>• Effort necessary to research and complete the tasks assigned to the City and the WLA is not included in this cost proposal; however, Task 3 of this proposal provides an allowance for review of their work.</li> </ul>	
<b>Two:</b>	<p><b>Subarea Plan Document Revisions to Respond to Agency Comments</b></p> <p>Task 2 includes text revisions associated with the analysis conducted in Task 1. Most consultant-assigned revisions to sections 1-5 are complete. As noted in the Task 1 discussion, the level of effort necessary to complete revisions to date has been much higher than anticipated due to the evolving nature of agency feedback on the document. This addendum covers minor revisions to sections 1-5 (grammatical, formatting, and final editing tasks) as well as completing consultant-assigned revisions to sections 6 and 7. Supplemental budget for mapping and graphics production is also included to cover costs associated with evolving map contents.</p> <p>Any additional new and substantial comments from the WLA or the City are not included, but can be provided at additional cost if needed. Ten (10) printed copies of the final document will be provided along with one fully editable electronic copy and one camera-ready electronic copy. Up to ten (10) large format map printouts and color map inserts for the printed copies of the final plan are included in this proposal.</p>	<b>\$9,894</b>
<b>Three:</b>	<p><b>QA/QC Review of Agency, Consultant, and City Revisions to the Subarea Plan</b></p> <p>The scope of work for this task has not changed. An additional \$160 is necessary to address an increase in subconsultant billing rates on previously-budgeted, but not yet used hours.</p>	<b>\$160</b>
<b>Four:</b>	<p><b>Team Meetings and Project Management</b></p> <p>The project has required extensive coordination and meetings thus far, and this trend is expected to continue through a series of planned coordination meetings. Foothill Associates will coordinate the efforts of the team and assure the project stays on track.</p> <ul style="list-style-type: none"> <li>• Task 4.1 addresses meetings between team members and with the WLA. As directed by the City, this addendum assumes that a total of 10 bi-monthly meetings with the WLA will be necessary. Each meeting is assumed to require four hours of attendance and travel. Preparation effort for each meeting is included in Task 4.2. This addendum also addresses attendance at two out of scope meetings already completed (WLA meeting on 1/20, and Team meeting on 12/18).</li> <li>• Task 4.2 includes all other aspects of project management necessary for the project, including: 1) sharing of data and information not covered by other tasks, 2) coordinating meeting dates, schedules,</li> </ul>	<b>\$31,622</b>

	<p>and deliverables, 3) maintaining a current copy of the master comment matrix, complete with the team’s responses to and the status of each comment, 4) coordinating with the City and/or the WLA on questions and clarifications. 5) and basic tasks such as invoicing, status reports, etc. This addendum requests additional budget to complete these tasks according to the meeting schedule as revised herein.</p> <ul style="list-style-type: none"> <li>• Task 4.3: Based on an increased understanding of the level of effort necessary to complete this task, and in order to address an increase in subconsultant billing rates, we are requesting an increase in the budget for this subtask.</li> <li>• Task 4.4: The scope of work for this task has not changed. We have, however, reduced the expected necessary budget by reallocating effort among the team.</li> <li>• Task 4.5 (new task) includes one combined meeting with members of environmental stakeholder groups and property owners following public review of the document. Foothill Associates’ team members will prepare an agenda and meeting graphics, and will attend one meeting, up to four hours in length. This task assumes that the City will make arrangements for a meeting venue, announcements and invitations, and other non-technical preparations. This task includes printing of up to four E-size display maps.</li> </ul>	
<p><b>Five:</b></p>	<p><b>Public Review / Response to Comments (New Task)</b>  The City has indicated it intends to recirculate the SAP document through a public review and comment period prior to its adoption. Foothill Associates’ team will provide digital PDF copies of the draft plan for public distribution; however this task does not include production costs or staff time for preparing printed copies. This task assumes that all questions and comments will be directed to City staff and that the consultant team will not be expected to field direct calls or questions from the public during the review period.</p> <p>At the completion of the review period, the City will forward a compiled list of public comments to the consultant team. The team will prepare responses to comments received and provide a Response To Comments document to the City. Because it is not possible to know the implications of public comments for further analysis and document revisions, this task does not include effort to conduct such analysis and revisions in response to public comment. This task assumes one team meeting will be necessary to collaborate on the Response To Comments, and that all other coordination will be done via email.</p>	<p><b>\$3,680</b></p>
<p><b>Six:</b></p>	<p><b>Implementing Agreement (New Task)</b>  The consultant team will review the draft Implementing Agreement (IA)</p>	<p><b>\$3,080</b></p>

	document prepared by City staff for technical adherence to Subarea Plan requirements and content. One round of thorough review and edits is included in this task.	
	<b>Labor Estimate:</b>	<b>\$75,685</b>
	<b>Other Direct Costs:</b>	<b>\$3,351</b>
	<b>Contingency Fund:</b>	<b>\$0</b>
	<b>Addendum 2 Total:</b>	<b>\$79,036</b>

**Assumptions:**

- Proposed budget addresses only the response to comments currently in-hand from the WLA, City, or other reviewing entities. Work necessary to address new comments is not included.
- This addendum includes initial coordination with the Coastal Commission does not include analysis or document revisions to address comments received by them, since it is not possible now to know what those comments might be.
- This addendum does not include preparation of a CEQA document for the project or efforts necessary to support the preparation of a CEQA document.
