

DATE: July 18, 2007

TO: Honorable Mayor and City Councilmembers

FROM: Water Utilities Department

SUBJECT: **APPROVAL OF A PROFESSIONAL SERVICES AGREEMENT WITH INFRASTRUCTURE ENGINEERING CORPORATION, OF OCEANSIDE IN THE AMOUNT OF \$264,470 FOR DESIGN, CONSTRUCTION MANAGEMENT AND INSPECTION SERVICES FOR THE MISSION SAN LUIS REY WATERLINE PROJECT**

SYNOPSIS

Staff and the Utilities Commission recommend that the City Council approve a professional services agreement with Infrastructure Engineering Corporation of Oceanside in an amount not to exceed \$264,470 for design, construction management, and inspection services for the Mission San Luis Rey Waterline project, and authorize the City Manager to execute the agreement.

BACKGROUND

The Mission San Luis Rey area currently has inadequate fire service. Water lines in Mission Avenue and El Camino Real are not connected, leaving the area in between dependent on wells to provide all water. Infrastructure improvements are needed to provide enough water volume to provide fire flow and to serve the area with water from the City's distribution system.

The Mission San Luis Rey Water Line project was submitted as part of the City's request for 2003 federal appropriations. The City's federal lobbyists, The Ferguson Group in Washington, D.C., were instrumental in locating the appropriate funding source for this project. With their assistance, the City requested \$238,500 from the EPA's State and Tribal Assistance Grant in the FY 2003 VA-HUD-Independent Agencies Appropriation bill.

In April 2003, the EPA notified the City that the project had received funding from the EPA's FY 2003 appropriation of up to \$238,500, with a requirement of \$195,136 in matching funds from the City. In June 2003, the Water Utilities Department applied

for the EPA appropriation grant for the design and construction of the waterline that would serve the Mission San Luis Rey area. Approval of the grant request was received in September 2003.

Since this time, the City has been in negotiations with the State Historic Preservation Office to complete the consultation for the project as required by Section 106 of the National Historic Preservation Act. This consultation is required before the MOA (Exhibit A) can be completed with all parties since the findings of the Section 106 consultation must be incorporated into the MOA. The consultation was completed in the fall of 2006.

ANALYSIS

The City received this grant as part of the 2002-2003 Federal Omnibus Appropriations bill. This grant provides full funding for 55 percent of the project for a maximum amount of \$238,500 and requires the City to provide 45 percent matching funds of \$195,136 for a total project cost of \$433,636.

The MOA has been executed so the City can begin work on the 1,570 linear feet of 10-inch PVC waterline in front of the Mission in the parking area connecting Peyri Drive and the east side of the property. There are also three fire hydrants proposed to connect to this 10-inch line. In addition, 1,350 linear feet of 10-inch PVC waterline is proposed along the east property boundary to loop the water system into the City's existing system.

Based on the information developed for this grant proposal and associated Memorandum of Agreement (MOA) a request for proposal was sent out last April to thirteen consultants, including eight in Oceanside (Exhibit A). The MOA required that the same archeological consulting firm be used for both design and inspection services. Therefore, the RFP was written to be inclusive of all services as dictated in the MOA. On April 26, 2007, proposals were received from four of the solicited consultants. The proposals were evaluated and the proposal in an amount not to exceed \$264,470 from Infrastructure Engineering Corporation was selected.

FISCAL IMPACT

The terms of the EPA grant require matching funds. The Water Utilities Department's matching share of \$195,136 will come from the Mission San Luis Rey Waterline project's estimated carry forward of \$1,271,149 (712.857418) for fiscal year 2007-2008. Zero funds have been expended on the grant to date; therefore, adequate funds are available.

COMMISSION OR COMMITTEE REPORT

The Utilities Commission approved staff's recommendation during its regular scheduled meeting on June 19, 2007.

CITY ATTORNEY’S ANALYSIS

The referenced documents have been reviewed by the City Attorney and approved as to form.

INSURANCE REQUIREMENTS

The City’s standard insurance requirements will be met.

RECOMMENDATION

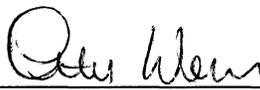

Staff and the Utilities Commission recommend that the City Council approve a professional services agreement in an amount not to exceed \$264,450 with Infrastructure Engineering Corporation of Oceanside for design, construction management, and inspection services for the Mission San Luis Rey Waterline project; and authorize the City Manager to execute the agreement.
