

STAFF REPORT

ITEM NO. 7
CITY OF OCEANSIDE

DATE: July 8, 2009
TO: Honorable Mayor and City Councilmembers
FROM: Development Services Department
SUBJECT: **APPROVAL OF PLANS AND SPECIFICATIONS FOR THE ANNUAL SLURRY SEAL FY 2009-10 PROJECT**

SYNOPSIS

Staff recommends that the City Council approve the plans and specifications for the Annual Slurry Seal FY 2009-10 project, and authorize the City Engineer to call for bids.

BACKGROUND

Each year, a construction contract for the Slurry Seal of surface streets is put out to bid to implement the Pavement Management Program. The Pavement Management Program is an inventory of the current condition of each City street with a recommended schedule for either an asphalt overlay or a slurry seal.

ANALYSIS

The project consists of the removal and replacement of deteriorated sections of street pavement and the replacement of the same with new hot asphalt. An herbicide is sprayed on vegetation growing through the asphalt cracks which are then cleaned of all debris and a rubberized asphalt crack sealer is applied. The final step is the cleaning of the roadway and the application of a rubber emulsion asphalt sealer or a tire-modified slurry seal across the entire street surface. This will prevent water from seeping under the asphalt and causing future damage to the asphalt and sub-grade.

FISCAL IMPACT

Funding is available in the Miscellaneous Street Project CIP (212.757790) which has an approximate available balance of \$579,801. With the adoption of the FY 2009-10 CIP budget, an additional \$1,149,517 is available for the project. Total available funding is \$1,729,318. The estimated project cost including construction contract award, construction contingency, staff time and construction administration is \$1,000,000. All expenditures will occur in the FY 2009-10 and sufficient funds are available for the project.

INSURANCE REQUIREMENTS

The City's standard insurance requirements will be met.

COMMISSION OR COMMITTEE REPORT

Does not apply.

CITY ATTORNEY'S ANALYSIS

The referenced documents have been reviewed by the City Attorney and approved as to form.

RECOMMENDATION

Staff recommends that the City Council approve the plans and specifications for the Annual Slurry Seal FY 2009-10 project, and authorize the City Engineer to call for bids.
