

STAFF REPORT**CITY OF OCEANSIDE**

DATE: May 2, 2012

TO: Honorable Mayor and City Councilmembers

FROM: Neighborhood Services Department

SUBJECT: **APPROVAL OF THE FY 2012-2013 ACTION PLAN OF THE 2010-2015 CONSOLIDATED PLAN; AND AUTHORIZATION TO SUBMIT THE FY 2012-2013 ACTION PLAN TO THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT**

SYNOPSIS

Staff recommends that the City Council:

1. Approve the 2012-2013 Action Plan of the 2010-2015 Consolidated Plan for submission to the U.S. Department of Housing and Urban Development;
2. Authorize the City Manager to submit applications to the U.S. Department of Housing and Urban Development for funds under the Community Development Block Grant and HOME Investment Partnership Programs;
3. Authorize the City Manager to sign and execute required forms and documents for Community Planning and Development block grant funds; and
4. Authorize the Neighborhood Services Director to execute agreements with subrecipients for the use of CDBG funds as approved by the City Council.

BACKGROUND

The Consolidated Plan for Housing and Community Development is a statutory requirement to receive funding through the Community Development Block Grant (CDBG) and the HOME Investment Partnership (HOME) programs. The U.S. Department of Housing and Urban Development (HUD) allocates funding for these programs to eligible jurisdictions based on an annual appropriation by Congress. The Consolidated Plan identifies a jurisdiction's overall housing and community development needs and outlines a five-year strategy to address those needs. The primary purpose of the Consolidated Plan and related projects and activities is to address the needs of low- and moderate-income persons, households and neighborhoods. Low-income households are defined as households earning less than 80 percent of the area median income (AMI); low-income neighborhoods are defined as census tracts with 51 percent or more households with income less than the AMI.

The Consolidated Plan is a five-year strategic plan that addresses the overall needs of the City for that period. The statutory goals of the Consolidated Plan and annual Action Plans are to provide decent housing, a suitable living environment, and enhanced economic opportunity for all residents of the City. The annual Action Plan sets forth specific objectives and strategies to address community needs in the areas of affordable housing, homeless individuals and families, public services, community facilities and neighborhood revitalization. The Action Plan describes the City's proposed housing and community development activities for the program year and identifies resources available to fund those activities. Both the five-year Consolidated Plan and annual Action Plan require significant citizen participation.

The City Council adopted the 2010-2015 Consolidated Plan on May 5, 2010; this plan will remain active until June 30, 2015. The proposed new Action Plan is for the period July 1, 2012, through June 30, 2013. The City must submit an approved Action Plan to the HUD Los Angeles Field Office no later than May 14, 2012.

The FY 2012-2013 Action Plan includes allocation of funds to entitlement programs for which the City is now eligible to receive funding from HUD:

- The HOME Investment Partnership Program (HOME) provides funds for a first-time homebuyer program through "silent second" loans for downpayment and closing costs, and for development of rental housing that is affordable to low- and very low-income households. The City will receive \$398,300 of HOME funds in FY 2012-13; this is a fifty percent reduction from FY 2011-12.
- The Community Development Block Grant (CDBG) Program provides funds to address three Community Planning and Development National Objectives: provide decent housing, promote a suitable environment, and provide enhanced economic opportunity for low- and moderate-income individuals, families and neighborhoods. The City will receive \$1,180,708 in CDBG funds for FY 2012-13; this is \$554 less than the amount originally announced for FY 2012-13 and a twenty-seven percent reduction from FY 2011-12. The City Council approved the FY 2012-13 CDBG budget (Attachment A) on March 14, 2012.

ANALYSIS

In the Action Plan for 2012-2013, the City has identified federal, state, and local resources available to the City to implement housing and community development activities. The City's annual entitlement funding from the federal government is based on an annual appropriation from Congress and determined by a formula including the City's population, age of housing and other factors; estimated entitlement grants for FY 2012-2013 include:

- | | |
|--|--------------|
| • Section 8 Rental Assistance Program (est.) | \$13,350,000 |
| ▪ Community Development Block Grant Program (CDBG) | \$1,180,708 |
| ▪ HOME Investment Partnership Program (HOME) | \$398,300 |

Activities funded under the CDBG and HOME programs in FY 2012-13 include:

- Single-family housing rehabilitation loans
- Manufactured housing rehabilitation grants (up to \$6,000)
- First-time homebuyer assistance through State Cal HOME funds
- New construction or acquisition and rehabilitation of rental units for very low-income households and development of mixed-use, mixed-income housing
- Nutrition programs for very low-income seniors
- Programs for children and youth from low-income families at City recreation centers and community resource centers
- Code enforcement to eliminate blight in targeted neighborhoods
- Activities to promote fair housing
- Programs and projects to improve the health, safety and overall quality of life for persons and families in low- and moderate-income neighborhoods of the City, especially in the Crown Heights/Eastside and Calle Montecito Neighborhood Revitalization Strategy Areas (NRSA).

The City has been able to make only a limited number of single-family owner-occupied rehabilitation loans due to the recession and related decline in home values relative to mortgage. As a result, the City has CDBG funds that can be carried forward and used for housing rehabilitation loans in the next year. The FY 2012-13 CDBG budget does not allocate any new funding for housing rehabilitation loans or grants; the budget does include \$140,000 for rehabilitation program management and loan services.

The City will seek additional funding for housing and community development activities through grant applications to federal and state agencies and to private foundations. The City has \$780,000 available through the CalHOME program and \$1,180,000 through Mortgage Credit Certificates for the City's first-time homebuyer program. The City in partnership with nonprofit housing development organizations will utilize State Multifamily Housing Program and Low Income Housing Tax Credit programs for development of rental housing that is affordable to low- and very low-income households.

CDBG funding for public services is limited by federal regulation to no more than fifteen percent of the entitlement amount plus the amount of program income received from repayment of housing rehabilitation loans. The amount of funding available for public services in FY 2012-13 is \$183,800; the FY 2012-13 CDBG budget shows the distribution of public services funds (Exhibit A) as approved by the City Council on March 14, 2012.

The federal FY 2012 budget as adopted and the President's proposed FY 2013 budget make it clear that there will be further reductions to the annual CDBG appropriation. This anticipated decrease in funding will require a review by the City Council of the City's CDBG program with a very real possibility that the City may need to eliminate all funding for public services. HUD regulations do not require using CDBG funds for public services.

The 2012-13 CDBG budget includes funding for three code enforcement officers. Two officers are assigned to the Crown Heights/Eastside NRSA and to the Calle Montecito NRSA as in the 2011-12 budget. The third officer is assigned to proactive code

enforcement activity; instead of responding to complaints, this officer looks for code violations and unpermitted construction activity in the City as a way to reduce blight and ensure compliance with building, storm water and other City Code requirements. A major code enforcement effort in 2012-13 will be an inspection of all housing in the Crown Heights/Eastside NRSA neighborhoods. Funds for code enforcement may only be used for property inspection and any follow-up activities such as legal proceedings.

The City uses CDBG administration and planning funds for fair housing programs as required by state and federal regulations. HUD is placing an increased emphasis on compliance with Fair Housing and Equal Opportunity (FHEO) regulations. The Neighborhood Services Department is currently reviewing FHEO regulations and requirements to ensure that the Department and City are in full compliance.

The draft 2012-13 Action Plan was made available for a thirty-day public review period at the Oceanside Public Library, the Mission Branch Library, the City Clerk's office, the Neighborhood Services Department office and on the City web site. Public comment has been requested through an advertisement in the *North County Times*. The City is required to respond to all the written comments as well as those comments made at the public hearing. Summaries of public comments and staff responses to the comments will be included in the final Action Plan document.

FISCAL IMPACT

The City will receive \$1,180,708 of Community Development Block Grant Program funds for activities described in the 2012-2013 Action Plan. CDBG funds are restricted for particular activities and are not available for reallocation to different purposes by the City Council. The City General Fund does not support activities described in the Action Plan and the allocations have no impact on the General Fund. CDBG and other federal funds must supplement and not supplant local funding for eligible activities. The attached budget (Exhibit A) keeps the allocations for administration and planning under the twenty percent cap and the public services allocations under the fifteen percent cap as required by CDBG regulations.

COMMISSION OR COMMITTEE REPORT

Based on direction of the City Council on December 14, 2011, CDBG public services grants were restricted to specific agencies and programs. As a result of this Council action, the ad hoc Application Review Committee did not meet.

CITY ATTORNEY'S ANALYSIS

The City Council is authorized to hold a public hearing in this matter. Consideration of the matter should be based on the testimony and evidence presented at the hearing. After conducting the public hearing, the Council shall affirm, modify or deny the project. The supporting documents have been reviewed and approved as to form by the City Attorney.

RECOMMENDATION

Staff recommends that the City Council:

1. Approve the 2012-2013 Action Plan of the 2010-2015 Consolidated Plan for submission to the U.S. Department of Housing and Urban Development;
2. Authorize the City Manager to submit applications to the U.S. Department of Housing and Urban Development for funds under the Community Development Block Grant and HOME Investment Partnership Programs;
3. Authorize the City Manager to sign and execute required forms and documents for Community Planning and Development block grant funds; and
4. Authorize the Neighborhood Services Director to execute agreements with subrecipients for the use of CDBG funds as approved by the City Council.

INTRODUCTION

The Action Plan is the City's annual update of the five-year Consolidated Plan for Housing and Community Development. This five-year plan sets objectives, strategies and anticipated outcomes with benchmarks for measuring progress. In so doing, it helps local governments and citizens keep track of results and learn what works. The Action Plan satisfies the annual submission and application requirements for the Community Planning and Development (CPD) formula programs offered by the U.S. Department of Housing and Urban Development (HUD) to local jurisdictions. CPD programs in the City of Oceanside include the Community Development Block Grant (CDBG) and HOME Investment Partnerships (HOME). The City prepares a Consolidated Annual Performance and Evaluation Report (CAPER) at the end of the program year to report on how well the City met the goals and objectives of the Action Plan. The City Council must approve the five-year Consolidated Plan, the annual Action Plan, and the annual CAPER before the City can submit the documents to the HUD - Los Angeles Field Office.

Federal statutes for the Consolidated Plan set forth three basic goals (the "National Objectives"); HUD will evaluate the plan and the jurisdiction's performance under the plan based on how well the City addresses these goals. Each jurisdiction's plan must state how it will pursue these goals for all community development programs, as well as all housing programs. The three program goals are:

DECENT HOUSING - - which includes:

- assisting homeless persons obtain affordable housing;
- assisting persons at risk of becoming homeless;
- retention of affordable housing stock;
- increasing the availability of affordable permanent housing in standard condition to low- moderate-income families, particularly to members of disadvantaged minorities without discrimination on the basis of race, color, religion, age, sex, national origin, familial status, or disability;
- increasing the supply of supportive housing that includes structural features and services to enable persons with special needs, including persons with HIV/AIDS and persons with mental illness, to live in dignity and independence;
- providing housing for youth aging out of the foster care system, homeless veterans, and other special needs populations, and
- providing affordable housing that is accessible to job opportunities.

A SUITABLE LIVING ENVIRONMENT - - which includes:

- improving the safety and livability of neighborhoods;
- increasing access to quality public and private facilities and services;
- reducing the isolation of income groups within areas through spatial deconcentration of housing opportunities for lower income persons and the revitalization of deteriorating neighborhoods;
- restoring and preserving properties of special historic, architectural, or aesthetic value; and
- conservation of natural resources through energy efficient practices.

EXPANDED ECONOMIC OPPORTUNITIES - - which includes:

- job creation and retention;
- establishment, stabilization and expansion of small businesses including micro-enterprises;
- the provision of public services concerned with employment;
- the provision of job-training opportunities to low-income persons;
- availability of mortgage financing for low-income persons at reasonable rates using non-discriminatory lending practices;
- access to capital and credit for development activities that promote the long-term economic and social viability of the community; and
- empowerment and education for low-income persons to reduce generational poverty and promote independent, self-sufficient living.

The 2012-2013 Action Plan of the 2010-2015 Consolidated Plan for the City of Oceanside addresses these three statutory program goals with local objectives, strategies, activities and anticipated outcomes. The housing and community development objectives in this Action Plan are prioritized in accordance with HUD categories, as follows:

- **High Priority** - The City will use federal funds to support activities that address these objectives, either alone or in conjunction with the investment of other public and private funds during the five-year period of the Plan. Reduced federal funding available in PY 2012 for the CDBG Program will move many activities from "High" to "Medium" priority
- **Medium Priority** - If funds are available, the City will use federal funds to support activities that address these objectives, either alone or in conjunction with the investment of other public and private funds during the five-year period of the Plan.
- **Low Priority** - The City will not fund activities to address these objectives during the five-year period of the Plan, unless the City obtains other public or private funds designated for the objective. The City will provide certifications of consistency for applications by local agencies for federal assistance when the application is for funds to address objectives in the Plan.

The following criteria were considered to set priorities:

- The extent to which a particular objective meets needs as identified in the Needs Assessment section of this Consolidated Plan;
- The extent to which the City's resources including federal, state and local funds will be available to address the identified needs and related objectives, especially with reduced funding for the CDBG program;
- For housing objectives, the degree to which an objective would assist the City to meet its Fair Share of the Regional Housing Need and increase for-sale and rental housing affordable to low- and moderate-income families;
- For homeless objectives, the degree to which an objective would support the regional plan to eliminate chronic homelessness and reduce the incidence of homelessness among families with children.

The City of Oceanside will particularly support projects and activities in 2012-2013 that address the national goals with specific local goals:

For Decent Housing, the City will look for projects and activities that address the regional plan for affordable housing and the recommendations of the City of Oceanside Affordable Housing Task Force (2005). The City will seek projects and activities that address the regional plan to eliminate chronic homelessness. The City will work with Community Housing Development Organizations for housing projects in the City, especially in neighborhood revitalization areas. Reduced CDBG funding in PY 2012 will eliminate funding for most homeless-serving programs.

For a Suitable Living Environment, the City will look for projects and activities that support neighborhood revitalization, provide assistance to needy seniors, promote the development of positive personal assets in youth and reduce youth involvement in gangs and delinquent behavior. Positive youth development programs that reduce the level of gang activity will be a primary concern during 2010-2015. Reduced CDBG funding in PY 2012 will eliminate funding for emergency services.

For Expanded Economic Opportunity, the City will look for projects and activities that improve conditions and offer opportunity for the "working poor," especially through job-training activities and expansion of childcare for low-income working families. The City will concentrate on neighborhood revitalization areas for economic development activities including micro-enterprise projects.

The City of Oceanside will also look for projects and activities that support in some way the City's Vision Statement:

The City of Oceanside will be a safe, culturally diverse community that empowers its citizens to provide an environment that promotes economic development, supports quality education, fosters the cultural arts and preserves its natural resources.

The City of Oceanside will adopt and utilize outcome performance measurement systems for the CDBG and HOME that meet or exceed HUD requirements, and will fulfill HUD requirements for performance measurement reporting. The City will strive to score in the top 25th percentile in all HUD reports, including the HOME *Snapshot* report, and become an outstanding performer in HUD scoring of the annual Consolidated Annual Performance Evaluation Report (CAPER). The City will meet all submittal and reporting deadlines for Recovery Act programs including projects funded through CDBG-Recovery and the Homelessness Prevention and Rapid Re-Housing Program.

PROJECTS, OBJECTIVES, OUTCOMES AND ACTIVITIES

as reported to

U.S. DEPARTMENT of HOUSING and URBAN DEVELOPMENT

The City reports to the U.S. Department of Housing and Urban Development (HUD) as to how the City uses CDBG, HOME and other federal, State and local funds to address the local objectives listed in the 2010-2015 Consolidated Plan and annual Action Plan. The HUD online reporting system (IDIS) uses a combination of projects and activities for reporting. The listing below of the City's projects for Program Year 2012 (FY 2012-2013) includes the regulation citation and HUD code, related objective(s), the specific activities that will receive PY 2011 funds, the source of funds (CDBG, HOME or other) for the activities, and the outcome statement and performance measurement for individual activities. The next section has details on specific activities.

The City will submit the PY 2012 Action Plan to HUD together with any substantial amendments to the 2010-2015 Consolidated Plan after approval by the City Council. Congress reduced the funding for the CDBG program for PY 2012. This reduction together with the use of Census 2010 data and the most recent American Community Survey (ACS) data resulted in a twenty-seven percent (27%) reduction in CDBG funding and a fifty percent (50%) reduction in HOME funding for the City. This reduction in funding had a major impact on CDBG funding available for public services and planning and administration.

The action of the State Legislature to eliminate Redevelopment Agencies will have a long-term impact on development of affordable housing. The full impact will not be known until the Legislature takes action on proposals to restore some of the housing funds that have been lost.
