Family Disaster Plan and Personal Survival Guide

I. PREPARATION

Family Meetings

At least once a year, have a meeting with your family to discuss and update your disaster plan. Determine what additional training, equipment, and supplies are needed to meet your family's needs. Don't forget to practice! Occasional drills can improve reaction time and help to avoid panic in an actual emergency.

- A.** Know how and where to shut off utilities.

Location of Main Water Valve: _____

Location of Gas Valve*: _____

Location of Wrench: _____

Location of Garage Door Manual Override: _____

Location of Other Utilities: _____

* Do not shut off gas unless you suspect a leak exists.

- B.** On a separate sheet of paper, draw a floor plan of your home showing the location of exit doors and windows, utility shutoffs, first aid kit, and emergency supplies. Ensure EVERYONE in your household is familiar with it. Show it to babysitters and house guests when you're going away.

- C.** Reunion locations: Establish two places where you and your family can meet following an emergency. One immediately outside of your home, e.g. a neighbor's mailbox, or community park **AND** another site outside of your immediate community in case you are unable to return home.

Home Location: _____

Away-from-Home Location: _____

- D.** Out-of-State Contact: Name and telephone number of a person outside of the state for family members to call and report their location and condition. Everyone should memorize this number!

Name: _____

Location: _____ Phone: (____) _____

- E.** What is your children's school disaster policy?

Are medical consent forms for your children complete and current? _____

Where are they located? _____

- F.** Assemble a Home Emergency Supply Kit. Store it in a convenient and accessible location. See Section VII for details on what to put inside your Home Emergency Supply Kit.

III. BEFORE A DISASTER

There are many different kinds of disasters, such as earthquakes, fires, floods, airplane crashes, chemical spills, and explosions, which seldom give warning and can be equally devastating to their victims. Although this guide is primarily about earthquake preparation, the steps you take will help your family prepare for any type of disaster that could strike in your community. For additional information on local disaster preparedness for your home, school, and business visit www.ReadySanDiego.org.

- A. Register your cell phone, Voice over Internet Protocol (VoIP) phone, and email address with AlertSanDiego*. **Listed and unlisted landlines are already registered. Registering makes it more likely that you will receive an emergency notification. Registration is quick and simple.**
**Also available in accessible formats such as American Sign Language.*
- B. Download the **SD Emergency App** for Android and iOS devices.
- C. Inspect your home. Identify potential hazards and evacuation routes.
- D. Secure water heater and tall or heavy furniture to wall studs.
- E. Move heavy items to lower shelves in bookcases.
- F. Install clips, latches and other locking devices on cabinet doors.
- G. Provide strong support and flexible connections on gas appliances.
- H. Remove or isolate and secure flammable materials.
- I. Review and practice this plan.

IV. DURING AN EARTHQUAKE

- A. If you are indoors **STAY THERE**. Move away from windows, bookcases, and high/overhanging shelves. Get under a sturdy table or desk and hold onto it. Be prepared to move with it and **HOLD** that position until the shaking stops and it is safe to relocate. If there is no desk or table to get under, brace yourself in an interior corner. Watch for falling, flying and sliding objects, and be especially careful around windows, as they can shatter during an earthquake.

NOTE: *If you are in a mobile home which is resting on A-Frame supports, get on top of the bed or sofa and cover your head and face. If a mobile home slips off the supports they may penetrate the flooring and cause injuries.*

- B. If you are outdoors, move to an open area away from buildings, trees, power poles, brick or block walls and other objects that could fall.
- C. If you are in an automobile, stop and stay in it until the shaking ends. Avoid stopping near trees and power lines or on or under overpasses or bridges.
- D. If you are in a multi-level building, get under a desk and hold on, or crouch next to an interior wall until the shaking stops. **DO NOT USE THE ELEVATOR TO EVACUATE.** Use the stairs.
- E. If you are in a store, get under a table or any sturdy object. Avoid stopping under anything that could fall. **DO NOT RUN FOR THE EXIT.** After the shaking has stopped, choose your exit carefully.

- Medicines and first aid kit
 - Flashlight, radio and batteries
 - Important documents and cash
 - Blankets and extra clothes
 - Personal sanitary items

- A.** Put on heavy shoes immediately to avoid injury from stepping on glass.
- B.** Locate a light source, such as a flashlight, if necessary.
- C.** Check for injuries and administer first aid.
- D.** Check for fires and fire hazards.
- Sniff for gas leaks, starting at the hot water heater. If you smell gas, hear a hissing sound or suspect a leak, turn off the main gas valve, open the windows and carefully leave the house. **DO NOT TURN LIGHTS ON OR OFF. DO NOT STRIKE MATCHES.**
- NOTE:** Do not shut off the gas unless you suspect a leak exists. Only the gas company can restore service.
- If necessary, turn off the electrical system at the main circuit breaker or fuse box.
- E.** Check on your neighbors.
- F.** Visit www.SDCountyEmergency.com or the **SD Emergency App** for updates, shelter locations, interactive mapping information (e.g. evacuation areas and hazard perimeters), official social media feeds, and other critical information.
- G.** Listen for advisories using a battery powered radio. The primary Emergency Alert System station for San Diego County is KOGO AM 600. The secondary station is KLSD AM 1360.
- H.** Do not use the phone except in emergencies. Only call 9-1-1 for life threatening emergencies. Have a plug-in analog phone in case the power is out, but phone lines are still working.
- I.** For general and updated disaster information or volunteer opportunities, call 2-1-1.
- J.** Do not touch downed power lines or objects touching downed wires. Do not stand in water near downed lines.
- K.** Remove fallen debris that may cause personal injury.
- L.** Assess house, roof, and chimney for damages.
- M.** Be prepared for aftershocks.
- N.** Open closets and cupboards carefully because items may have fallen or become rearranged.
