

Phase 1: Beach Restroom Project

This project began with the Breakwater Way, Tyson and Sportsfisher restrooms being demolished and will be rebuilt in the same footprint with additional stalls. Contractors will begin the renovations on the mid-Pier restrooms and the Wisconsin Street restrooms in early Spring 2015.

Beach Restroom Phase 2: Oceanside Beach Operations and Restroom Project

As an ongoing commitment to improve beach area facilities the City is proposing a new project. South of the Junior Seau Amphitheater the City is proposing to improve the restroom, police, lifeguard and maintenance operations facilities, as well as, beach access from Pacific Street and Mission Avenue, resident and visitor serving facilities, and storage and trash enclosures that support beach programs.
