## BACKGROUND

The Manufactured Home Fair Practices (MHFP) Ordinance was originally adopted by the Oceanside City Council on September 12, 1984, and was codified as Chapter 16B of the Oceanside City Code. The space rent limitations provided by the ordinance became effective January 1, 1985.

## ANALYSIS

The subject parks are located in the City and are subject to the Ordinance. An Annual Permissive Adjustment application for each of the above parks was filed with the City Clerk on or before November 12, 2014 as required by the Ordinance. The applications were declared complete by staff on March 5, 2015.

The current space rent ceiling is the rent authorized by this Commission for the park owners to collect through June 30, 2015. The proposed increases will be effective July 1, 2015. **The Ordinance provides that park owners are entitled to an annual permissive adjustment of gross space rent equal to the lesser of 8 percent or 75 percent of the percentage increase in the Consumer Price Index (CPI) for the applicable calendar year.** The Consumer Price Index (CPI) percentage increase reported by the Bureau of Labor Statistics for all items for San Diego County in 2014 is 1.9 percent. Pursuant to the Ordinance, the lesser of 8% or 75% of the percentage increase in the CPI (75% of 1.9% = 1.43%) is the factor for calculating the Annual Permissive Adjustment. Therefore, the percentage increase for the purpose of calculating the Annual Permissive Adjustment is 1.43 percent.

Each proposed resolution provides as follows:

1. The space rent ceiling per month for all non-exempt spaces shall be increased by 1.43 percent effective July 1, 2015.
2. No rent increase shall be effective at any given park unless and until the park is in compliance with all the requirements of Chapter 16B of the Oceanside City Code, including passing a health and safety inspection conducted by the City Building Department and the park owner's issuance of a 90-day notice to residents regarding the rent increase.
3. Nothing herein shall authorize any increase or change in any rent or other charge imposed on the residents not in compliance with State Law.

## FISCAL IMPACT

If approved by the Commission, the Annual Permissive Adjustment will result in a monthly rent increase of 1.43 percent per space for all regulated spaces.

**CONCLUSION**

Staff recommends that the Manufactured Home Fair Practices Commission adopt resolutions approving the 2015 Space Rent Ceilings for all regulated spaces in the mobile home parks listed above
