

# CITY OF OCEANSIDE

## Department of Water Utilities Urban Runoff Information

The City of Oceanside is required, under new State regulations, to identify the potential effect that each business may have on water quality. All businesses are also required to comply with the City of Oceanside's Urban Runoff Management and Discharge Control Regulations (City Code Chapter 40), which prohibit the discharge of pollutants and non-storm water to City streets and storm drains. Water that flows on streets and into storm drains is discharged to the nearest waterbody, without treatment. Typical urban runoff pollutants include oils, chemicals, building materials, dirt, vegetative waste, and trash.

All businesses must complete and submit this form with their business license application, as well as implement the appropriate Best Management Practices to prevent such discharges. This form must be completed to receive your business license. Contact the Water Utilities Department at 760-435-5800 or log on to our website at [www.oceansidecleanwaterprogram.org](http://www.oceansidecleanwaterprogram.org) for further information.

### Reason for Submittal

New Business

Change of Information

### Site and General Information

Date: \_\_\_\_\_

Standard Industrial Classification (SIC) Code: \_\_\_\_\_
