1610 Specific Purposes

In addition to the general purposes listed in Article 1, the specific purposes of the PS Public and Semipublic District are to:

- A. Allow consideration of a large public or semipublic use separately from regulations for an underlying base zoning that may or may not be appropriate in combination with the public or semipublic use.
- B. Allow consideration of establishment or expansion of a large public or semipublic use at rezoning hearings rather than at use permit hearings only, and give notice to all of the extent of a site approved for a large public or semipublic use by delineating it on the zoning map.
- C. Allow the Planning Commission and City Council to consider the most appropriate use of a site following discontinuance of a large public or semipublic use without the encumbrance of a base zoning district that may or may not provide appropriate regulations for reuse of the site.

1620 Land Use Regulations

In the following schedule, the letter "P" designates use classifications permitted in PS districts. The letter "L" designates use classifications subject to certain limitations prescribed by the "Additional Use Regulations" which follow. The letter "U" designates use classifications permitted on approval of a use permit, as provided in Article 41. The letters "P/U" designate use classifications permitted on the site of a permitted use, but requiring a use permit on the site of a conditional use.
