

California-Friendly Landscape Contest

The City of Oceanside, along with other San Diego County Water Agencies, is sponsoring the California-Friendly Landscape Contest. By sharing photos of their low water-use landscapes, residents can spotlight their creative and proactive approach to water efficiency AND win a prize of **\$250!** In particular, we would like to share your story of what motivated you to change your landscape so that others in Oceanside can learn from your experience -and hopefully follow in your footsteps!

Basic judging criteria: Design for beauty and water conservation, creative use of colorful, water-wise plants.

After the contest, we would like to publish photos of your yard on our website (both before and after photos if possible) and a brief description of your experience. Please visit <http://landscapecontest.com/> for contest rules, requirements, and entry forms.

Send entries to esteward@ci.oceanside.ca.us , deadline to apply is **April 10, 2015.**
