04.22.17 9:00 am - 1:00 pm

Location:

The Home Depot
5755 Mission Ave
Oceanside, CA 92057
[Get Directions](#)

Event Description:

A more attractive and water-efficient yard sounds enticing, doesn't it? Need more inspiration? This spring, San Diego County residents can get first-hand advice from gardening experts and huge savings on varieties of low-water-use plants at select Home Depot locations during San Diego County Garden Friendly Plant Fairs.

Each event features discounts on a variety of plants chosen by a panel of experts because they are water-wise choices for the San Diego region.

Industry experts will be available to provide customers with information about water-efficient irrigation systems and low-water-use plants. The Home Depot certified nursery

consultants will host informative how-to workshops. Local water agency staff also will be on-hand to provide customers with information about water conservation programs and services where they live.
