COMMUNITY HEALTH MATTERS

Troubled teenagers, depressed seniors and working moms with health problems all may have one thing in common—they may be helped by meeting with behavioral health professionals. There is a nation-wide movement to provide more behavioral health services for young, middle age and senior patients. And we are blessed in North County to have three major health providers who offer a wide variety of services.

KOCT - Your North County Community Television Channel has produced another series of Community Health Matters. The topic for this season is Behavioral Health Services and Treatment, and features three area health service centers: Tri-City Medical Center, North County Health Services, and Vista Community Clinic.

The program was made possible by a grant from the Tri-City Healthcare District Board of Directors Community Healthcare Alliance Committee, allowing KOCT to produce three 30-minute shows. **LINEUP:**
