

## PACK IT IN, PACK IT OUT AT CITY BEACHES AND PARKS

Beach trash of all kind impacts the community, sea life, birds, and pollutes the ocean. Overflowing trash and recycling cans leave a bad impression and unnecessarily tax City resources.

When visiting the beach, think ahead and **become part of the solution!**

While thousands of people enjoy Oceanside's beaches and parks this summer, remember to **"Pack it in, Pack it Out."**

Whatever you bring to the beach should be taken with you, not left behind. Leave no trace. When it's time to leave the beach, take a look around, do a mini beach cleanup and don't forget your beach toys!

Let's work together to sustain healthy, vibrant, natural spaces **for everyone to enjoy**, now and into the future.

### ZERO WASTE MUST HAVES!

reusable cooler

reusable  
water bottle

reusable beach bag

**Ditch the disposables!**  
Say "No" to foam, plastic,  
and plastic bags.
