

DEVELOPMENT SERVICES DEPARTMENT

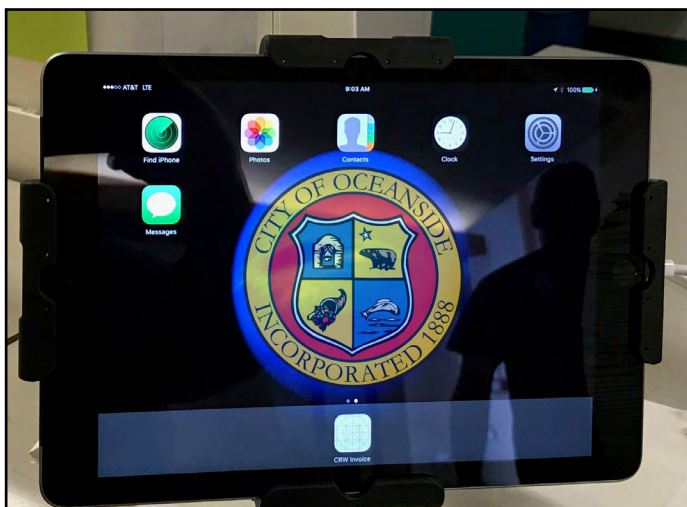

DOING BUSINESS WITH THE CITY OF OCEANSIDE JUST GOT EASIER

The City of Oceanside Development Services Department promotes safety, livability and economic vitality through efficient and collaborative application of building and development codes. The Development Services Department is comprised of the Planning, Engineering, and Building Divisions. With the City's General Plan as a blueprint, the department oversees all aspects of land use, natural resource and transportation planning, design of public projects, and construction oversight on both public and private properties.

Staff from the three Divisions provide customer service support at the Development Services Center at 300 N. Coast Highway. Whether it is an online or in-person process, we strive to make the development experience as efficient as possible. We're committed to providing the highest level of service!

NEW! CREDIT CARD PAYMENTS AT THE DEVELOPMENT SERVICES COUNTER

Credit card payment kiosks are now available at the Development Services Department front counter. Customers now have the ability to pay fees with a credit card at the counter, reducing the customer's time spent processing permits and/or projects. The credit card kiosk allows Development Services to efficiently assist the customer through the full process, without interruption.

SIMPLICITY WITH eTRAKIT AND ONLINE SERVICES

Residents, business owners and developers can track the status of their building permits, planning projects, schedule inspections, pay fees and much more with the City of Oceanside's online access to permitting services, called eTRAKIT. It's easy to register. The information you're seeking is only a mouse click away, 24-hours a day, seven days a week, through the City of Oceanside's website.

For step-by-step instructions, please see the eTRAKIT User Manual and application:
