**Do you want to make a difference in your community?  
Do you want to build and grow a sustainable arts  
organization? Do you want to give back through  
culture and creative expression? The California Arts  
Council wants to help!**

The California Arts Council is your state arts agency. It's our job to help maintain California's unique identity by investing in the organizations that keep your artistic energy thriving and make our diverse communities healthy and vibrant.

Representatives from local arts and culture nonprofit organizations are encouraged to join the California Arts Council for a special workshop to learn about the many grant offerings that might be a good fit for your organization's activities.

At this free workshop, California Arts Council programs staff will provide an overview of the Arts Council's grant programs, share insights into the state grant process, and guide participants in best practices for composing successful California Arts Council grant applications.
