

Congratulations Water Awareness Poster Contest Winners

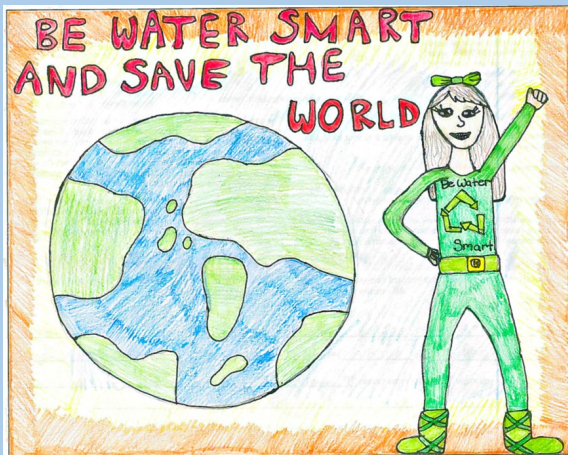

The Water Awareness Poster Contest is an annual competition among fourth grade students in each of the North County water agencies' service areas, designed to promote an understanding and appreciation for conserving water and using it more efficiently.

Nearly 60 fourth grade students in the Oceanside Unified School District entered this year's poster contest, representing eight different elementary schools within the district.

The three winners selected for the City of Oceanside this year are Sadie Troyer, Julie Marvan and Leanne Gonzalez.

These students' creative and inspiring artwork will be featured in the 2020 North County Water Agency Calendar. Congratulations!
