

Street Sweeping

Street Sweeping schedules are returning to normal 100% coverage, but many vehicles have not been moved in months. Unmoved cars mean streets are not swept well. Street Sweepers need to get to the curb. Trash and debris that cannot be reached gets swept by storm water into rivers, creeks and the ocean. Please do your part by keeping your vehicle moving and out of the way for the street sweeper. The resumption of street sweeping enforcement will be announced shortly, but in the meantime, we urge you to move your vehicle for the sweeper. If your vehicle is tagged with a warning for not having moved in 72-hours, the only requirement is you drive it once every three days.

**Thank you for helping us keep
Oceanside's streets clear of debris.**
