

Beachfront Improvement Feasibility Study - Phase II

Update & Final Steps!

Please be informed the City of Oceanside has commenced work on a feasibility study to explore potential improvements to the Junior Seau Beach Community Center, Junior Seau Pier Amphitheater/Bandshell, and the pier plaza area.

The City has completed the "Discovery" and "Option Development" phases of this study which focused on evaluating the existing site and facility conditions, soliciting extensive feedback from the public on the study area, and developing potential improvement options based on all this information.

The City is excited to announce the start of the "Final Documents Phase" of this study. As a member of the Oceanside community and user of these facilities, the City encourages your attendance at this final outreach meeting to view and discuss the proposed improvement options generated through this study. Please take this opportunity to see what the City has been working on!

Attend the
"Final Documents Phase"
Community Outreach Meeting
to view and discuss the
proposed improvement
options!
