

Oceanside Fire Department Webpage Frequently Asked Questions FAQ's

How do I become a firefighter?

The document at the following website <https://www.ci.oceanside.ca.us/civicax/filebank/blobdload.aspx?BlobID=44001> is a document geared toward high school students, but is valuable to anyone just getting started in researching the pathway to a career in the fire and emergency services.

Information

- Bees, snakes, and pests
 - Bees – Use your favorite internet search engine or local directory to search under “Bee Control and Removal Services”. The fire department does not assist with bee removal, but can assist in a life threatening situation when bees are attacking. Call 911 in life threatening situations.
 - Animal rescue and pests - Contact the San Diego Humane Society in Oceanside at (760) 757-4357 for assistance with snakes, dogs, cats, and other animals. In some instances the fire department may assist, but the calls should be routed through animal control services.
- Brush/weed hazard and abatement
 - The City of Oceanside contracts with a company called Fire Prevention Services, Inc. (FPSI). Contact them at 1-866-779-3774 extension 309 to report your concerns. Or visit their web site at www.fpsi.net
 - For more information on fire hazard/wildfire prevention, visit www.sdcountry.ca.gov
- Car seats
 - The Oceanside Fire Department doesn't install car seats for liability reasons. Please contact the California Highway Patrol at 760-643-3400. Their office is located at 435 La Tortuga, Vista, CA 92081
- Carbon Monoxide alarms and requirements.
 - Alarms – carbon monoxide (CO) is colorless and odorless. If you have an alarm, evacuate the structure and call 911. Read the manufacturers documentation for maintenance and know the indications of a low battery.
 - Am I required to have a Carbon Monoxide alarm?

As of July 1, 2011, the carbon Monoxide Poisoning Prevention Act (Senate Bill-SB183) will require all single-family homes with an attached garage or a fossil fuel source to install carbon monoxide alarms within the home by July 1, 2011. Owners of multi-family leased or rental dwellings, such as apartment buildings,

had until January 1, 2013 to comply with the law. See the following website for FAQ's on Carbon Monoxide:

<http://www.ci.oceanside.ca.us/civicax/filebank/blobdload.aspx?blobid=26195>

- CPR classes?
 - Not at this time. Please contact San Diego American Red Cross at 858-309-1200 or www.sdarc.org, Mira Costa College at 760-795-6820 or www.miracosta.edu/community or Project Heartbeat at www.sdprojectheartbeat.com
- Driving and emergency vehicles.
 - To help firefighters and paramedics get to an emergency more quickly remember, when you hear a siren:
 - Look in all directions for emergency vehicles as you plan your next move. Be aware there may be more than one responding crew.
 - If you are at a green traffic light, look for emergency vehicles before proceeding through the intersection.
 - If you are at a red light, await a green light and then pull through and to the right as soon as safe. Proceeding through a red light is unsafe in any circumstance.
 - Never stop in an intersection. Continue through the intersection and then drive to the right as soon as possible.
 - Don't slam on your brakes.
 - Don't pull over suddenly.
 - Use your blinker to show emergency crews the direction you are moving.
 - On the freeway, carefully move out of the lane used by emergency crews; again, use your blinker.
 - Don't try to outrun the emergency vehicle.
 - It is illegal to follow within 300 feet of any emergency vehicle when it is answering an emergency call.
 - Don't stop in a place where the emergency vehicle can't get around you. Pulling over to the left can clog all lanes when there is a lot of traffic.
 - You must follow any traffic direction or signal given to you by a police officer or firefighter, even if it conflicts with existing signs, signals or laws. After the crew passes, carefully merge back into traffic.
 - Anyone driving to the scene of a fire, accident or other emergency merely for sight-seeing purposes may be arrested. The City of Oceanside's emergency crews are seeing a growing number of motorists who don't yield for the lights and sirens of fire engines and ambulances. It's not only unlawful to impede the response of emergency vehicles, you could be delaying life-saving medical help.

- Emergency kits and supplies
 - Three day supply of water and non-perishable food
 - Battery powered or hand crank radio with extra batteries
 - Flashlight and extra batteries
 - First Aid Kit
 - Whistle to signal for help
 - Dust mask to filter contaminated air
 - Plastic sheeting and duct tape to shelter in place
 - Moist towelettes, garbage bags and plastic ties for personal sanitation
 - Wrench or pliers to turn off utilities
 - Can opener for food if you included canned food.
 - Local maps
 - For more information, visit www.sdcounty.ca.gov
- Extinguishers
 - Disposal – please call the Waste Management Household Hazardous Waste Facility to schedule a drop-off appointment. It is located at 2880 Industry Street, and the phone number is 760-439-2824. They accept them twice a month on Saturday by appointment only.
 - Use your favorite internet search engine or local directory to search under “Fire Extinguishers” to locate a company that can service/replace your unit.
 - A 2A 10BC type fire extinguisher can usually satisfy the requirements for a light hazard occupancy or household
 - Types of fires:
 - Class A: ordinary combustible materials such as wood, cloth, paper, rubber and many plastics
 - Class B: flammable liquids, oils, greases, tars, oil based paints, solvents, lacquers, alcohols, and flammable gases
 - Class C: energized electrical equipment (when equipment is de-energized the fire becomes Class A or B)
 - Class D: combustible metals such as magnesium, titanium, zirconium, sodium, potassium and lithium.
- Fire hydrant problems
 - Please contact the City of Oceanside Water Utilities Department at 760-435-5800

- Fireworks and ammunition
 - You may drop off fireworks (and only fireworks) at any fire station in the City of Oceanside. Contact Fire Prevention at 760-435-4101 for more information.
 - Ammunition or other hazardous explosive/flammable devices need to be disposed of through the San Diego County Sheriff's Department at 858-974-2222.
- Medical sharps, prescription, hazardous waste disposal
 - Sharps: Contact your personal physician or pharmacist to acquire personal sharps containers or use a sharps disposal mail-back program. More information is available at www.wastemd.com
 - Prescription drugs: Oceanside Police has a drug collection drop-box at the Evidence and Property Facility at 4927 Oceanside Blvd., Oceanside, CA 92056
 - Other household waste: Visit the City of Oceanside web site www.ci.oceanside.ca.us (Solid Waste, Recycling, Sharps Medical Waste Info)
- Pilot light furnace assistance
 - Please contact SDG&E at 1-800-411-7343
- Sandbags
 - Sandbags are available at the City Operations Center, 4927 Oceanside Blvd. between 9:00 am – 4:00 pm.
 - Bags and sand are provided – please bring your own shovel to fill the bags (depending on personnel we may help to load filled bags only).
 - 10 bag limit per resident.
 - Sandbag vendors: Moody's Recycling at El Corazon has sandbags for Oceanside residents; you fill. Moody's is located at 3210 Oceanside Blvd. They can be reached at (760) 433-3316; call ahead for hours.
 - Lowe's and Home Depot also sell sandbags at their location. Call first to make sure they have some in stock.
- Smoke detector placement and operation
 - Hold the button in to test the batteries. If it "beeps", it's working.
 - If the detector is "chirping" (short intermittent beep every few minutes), replace the batteries.
 - When in doubt, replace the batteries. Replace your batteries every six months. A good reminder is to change your batteries when you change your clocks at Daylight Savings Time.

- If the alarm is hard-wired (tied into your electrical system), call your electrician for service. They will still use a battery backup and require homeowner maintenance.
- Place detectors on each level of your home and especially on the hallway ceiling near the air vents. If you sleep with your bedroom door closed, it's a good idea to place a detector in your bedroom.
- Contact the Oceanside Fire Department Fire Prevention Division at 760-435-4101 for assistance with installation and battery replacement.
- For more information visit The Burn Institute at www.burninstitute.org
