

## CITY COUNCIL WEEKLY UPDATE

May 5, 2017

### Planning

Planning Commission meeting for 5/8/17 was cancelled.

### Economic Development

The City's population has increased to 176,461 as of January 1, 2017, according to the latest population estimates from the Department of Finance which were issued on May 1.

### Harbor

**U.S. Army Corps of Engineers Harbor Dredging Project** – Due to the loss (overboard) of a critical part of the dredge called a swing block that moves the dredge barge so that it can sweep left/right through an area, Manson Construction has still only dredged 52,600 yards of sand. Manson has been conducting underwater searches for the lost item and has not yet found it. They have hired a vessel with an onboard magnetometer to search and hope to have recovered the swing block by Saturday. Manson hopes to resume dredging in the entrance channel on Tuesday. The sand discharge pipe end is now 500 feet south of North Coast Village and will be moving to the area seaward of Surfrider as soon as they resume dredging operations. Following an estimated two days of sand discharge at Surfrider, the plan is to move to the Pier Area for an estimated four days then to move south. In theory, if Manson resumes dredging operations on Tuesday, they could still achieve the desired sand volume for this year.
