Loma Alta Slough Wetlands Enhancement Project

Community Workshop # 1

QUESTION #1: What do you like about Loma Alta Slough?

QUESTION #2: How would you like to see Loma Alta Slough function or be used in the future?

QUESTION #3: Does the vision you have for the Loma Alta Slough that you identified under Question #2 match the project goals identified at the community workshop?

Goals for Loma Alta Slough:

1. Loma Alta Slough is a resilient coastal wetland habitat with associated marine and terrestrial habitats
2. Ecological and physical processes at Loma Alta Slough are restored to maximize ecosystem benefits and support a dynamic and self-sustaining ecosystem over the long-term.
3. Loma Alta Slough is restored in a manner that promotes research, education, and community engagement in ways compatible with the restored ecosystem.

If yes, identify the corresponding goal number(s) below.

If no, please describe recommended changes to the goals.

Additional Comments

Thank you for taking the time to attend this workshop and providing us with written comments.
