

STAFF REPORT*CITY OF OCEANSIDE*

DATE: February 23, 2022

TO: Honorable Mayor and City Councilmembers

FROM: City Clerk

SUBJECT: **FOURTH PUBLIC HEARING TO RECEIVE PUBLIC FEEDBACK ON DRAFT REDISTRICTED CITY COUNCIL MAPS AND MAKE ANY APPLICABLE CHANGES**

SYNOPSIS

Staff recommends that the City Council receive public testimony on City Council District Boundaries, and provide applicable direction to the redrawing of City Council District Boundaries in accordance with California Elections Code 21621 based on public feedback.

BACKGROUND

In 2017, the City transitioned from an at-large election system to a by-district based election system. At that time, the City used the available 2010 census data to create districts that were equal in population as is required by the Federal Voting Rights Act. As new census data is collected every ten years, cities with district-election systems use that data to review, and if needed, redraw district boundaries to reflect how local populations have changed.

On June 16, 2021, the City Council approved a Professional Services Agreement with Q2 Data and Research LLC to assist in the process of updating council district boundaries based on the 2020 census data. The City previously used Q2's services for the initial drawing of the district boundaries in 2017. Beginning January of 2022, Q2 will facilitate four public hearings that are required under the Fair Maps Act ("the Act"). Q2 will also facilitate four additional community outreach workshops to take public input on communities of interest and composition of the districts. The dates and location of those meetings can be found in Attachment 1. California Elections Code Section 21622 requires that the City adopt a final district map no later than April 17, 2022. The City is on schedule to make that deadline.

On January 12, 2022, the City Council held its first public hearing regarding redistricting. A report was presented by Q2 Data and Research LLC ("Q2") on the redistricting process and permissible criteria to be considered to redraw City Council election district boundaries.

On January 19, 2022, the City Clerk's office in coordination with Q2 conducted a community outreach meeting at the Civic Center Library Community Rooms to accept public input on communities of interest and composition of the districts. 12 citizens attended in-person and 23 attended via Zoom.

On January 22, 2022, the City Clerk's office in coordination with Q2 conducted a community outreach meeting at the El Corazon Senior Center to accept public input on communities of interest and composition of the districts. 8 citizens attended in-person and 9 attended via Zoom.

On January 26, 2022, the City Council held its second public hearing regarding redistricting. A report was presented by Q2 on population changes of current districts and visualizations of redistricted maps, and the public provided testimony on communities of interest and preferences for the composition of new district boundaries.

On February 2, 2022, the City Clerk's office in coordination with Q2 conducted a community outreach meeting at Lincoln Middle School to accept public input on communities of interest and composition of the districts. 12 citizens attended in-person and 12 attended via Zoom.

On February 5, 2022, the City Clerk's office in coordination with Q2 conducted a community outreach meeting at Melba Bishop Recreation Center to accept public input on communities of interest and composition of the districts. 9 citizens attended in-person and 1 attended via Zoom.

On February 9, 2022, the City Council held its third public hearing regarding redistricting. A report was presented by Q2 on visualizations of redistricted maps, public feedback was on the boundaries of redrawn City Council District boundaries was received, and live drawing of a draft map was initiated based on Council direction.

ANALYSIS

Assembly Bill 849, Fair Maps Act ("the Act"), requires cities with district-elections to update their district boundaries as new decennial census data becomes available.

Under the Act, the Council shall draw and adopt boundaries using the following criteria in the listed order of priority for chartered cities (Elections Code 21621):

1. Comply with the federal requirements of equal population and the Voting Rights Act.
2. Geographically contiguous.
3. Respect for (or minimize the division of) local neighborhoods and communities of interest).
4. Easily identifiable boundaries.
5. Be geographically compact (do not bypass one group of people to get to a more distant group of people), to the extent practicable.

6. Shall not favor or discriminate against a political party.

The purpose of this public hearing is to inform the public about the districting process and to hear from the community on what factors should be taken into consideration while creating district boundaries. Q2 Data and Research LLC will be presenting a report on draft redistricted maps (Attachment 2). The public is encouraged to provide input regarding communities of interest and other local factors that should be considered while drafting district maps. Elections Code Section 21621(b)(2) defines a community of interest as, "a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation."

Possible features defining community of interest might include, but are not limited to:

1. School attendance areas;
2. Natural dividing lines such as major roads, hills, or highways;
3. Areas around parks and other neighborhood landmarks;
4. Common issues, neighborhood activities, or legislative/election concerns; and
5. Shared demographic characteristics, such as:
 - Similar levels of income, education, or linguistic insolation;
 - Languages spoken at home; and
 - Single- family and multi -family housing unit areas.

CITY ATTORNEY'S ANALYSIS

Under the California Fair Maps Act, the City must hold at least four public hearings for the community to provide input regarding the composition of the districts. Further, the Fair Maps Act provides that for redistricting occurring before 2031 and where a city

does not have a regular election occurring after January 1, 2022 and before July 1, 2022, the boundaries of the council districts shall be adopted by the council not later than 205 days before the city's next regular election occurring on or after July 1, 2022. That places the deadline to adopt the district boundaries no later than April 17, 2022. The City Attorney's office will prepare the appropriate ordinance prior to the final public hearing.

RECOMMENDATION

Staff recommends that the City Council receive public testimony on City Council District Boundaries, and provide applicable direction to the redrawing of City Council District Boundaries in accordance with California Elections Code 21621 based on public feedback.

Oceanside Redistricting 2022

Where do you draw the line?

What is redistricting?

Redistricting is the process of adjusting district lines to reflect local population changes, so that each district continues to contain nearly the same number of people as the other districts.

When does redistricting happen?

Redistricting is required to occur after census data is released every 10 years.

How can I get involved?

See the schedule below for opportunities to provide input on where you think district lines should be drawn and what communities or groups are important to keep together. Feel free to contact us outside of the public meetings as well!

Redistribución de Distritos 2022

¿Dónde quieres que estén las líneas?

¿Qué es la redistribución de distritos?

La redistribución de distritos es el proceso de ajustar las líneas distritales para reflejar los cambios de la población local, de modo que cada distrito continúe teniendo casi la misma cantidad de personas que los demás distritos.

¿Cuándo ocurre la redistribución de distritos?

Se requiere que la redistribución de los distritos ocurra después de que se publiquen los datos del censo cada 10 años.

¿Cómo puedo involucrarme?

Consulte la cronograma para conocer las oportunidades de brindar información sobre dónde cree que se deben trazar las líneas del distrito y qué comunidades o grupos es importante mantener juntos. ¡No dude en contactarnos también fuera de las reuniones públicas!
